re: docket 7466
Investigation into Petition Filed by Vermont Department of
Public Service re: Energy Efficiency Utility Structure

Dear Mrs. Hudson:

This letter is to inform the Board that the Group of Municipal Electric Utilities ("GMEU") will not be filing prefiled testimony in his docket. Through our high level of participation and work with other parties in this docket, we are aware that many other parties will be taking positions consistent with that of the GMEU; namely, that transition to an appointment model, with an appropriate series of checks and balances, will bring about improvements over the current structure. The testimony filed by Central Vermont Public Service Corporation, in particular, aligns with the views of the GMEU regarding the areas of contention in this docket.

The GMEU will continue to be a full and active participant in all remaining phases in the docket. In a case where we anticipate that the testimony of many parties will be both overlapping and consistent with GMEU positions, however, we believe that resolution of the docket is most efficiently promoted by the approach outlined herein, rather than through an evidentiary presentation that would be largely redundant.

We look forward to working with the Board and all parties to bring this docket to resolution.

Very truly yours,

David John Mullett
